Micrylium

BioSURF

HARD SURFACE DISINFECTION

**EFFECTIVE IN
1 MINUTE**

- ✦ 1-Minute Kill Time (Including TB & COVID-19)
- ✦ Plant-based ingredients. Safer for users.
- ✦ Rated “Best Surface Disinfectant” by Dr. Gordon Christensen
- ✦ Designed to remove blood, proteins, inks, dyes, lipids, waxes and oils
- ✦ Pleasant lime & mango scent

BioSURF is the world's fastest one step surface disinfectant. Unlike most disinfectants that can take up to 10 minutes to disinfect, BioSURF works within 50 seconds. BioSURF is the perfect choice for rapid disinfection of counters, trays, impressions, medical devices, metal instruments and other hard surfaces.

BioTEXT

TEXTURED SURFACE DISINFECTION

**EFFECTIVE IN
3 MINUTES**

- ✦ One step cleaning power
- ✦ Plant-based ingredients.
Safer for users.
- ✦ Gentle formula for use on
delicate and textured
surfaces
- ✦ Complete stain and odour
elimination
- ✦ Fresh scent

BioTEXT is the only clinical disinfectant specifically designed for use on delicate or irregular surfaces. It is proven to kill benchmark organisms on naugahyde, leather, vinyl and rubber surfaces. Ideal for tubing, fabrics, carpets, chairs and other high touch surfaces such as keyboards and glass touch screen devices.

BioMERS

IMMERSION BATH

**EFFECTIVE IN
1 MINUTE**

- ✦ 1-Minute TB Kill Time
- ✦ pH neutral formula is gentle on instruments and will not corrode metals
- ✦ Plant-based ingredients. Safer for users.
- ✦ Designed to remove blood, proteins, inks, dyes, lipids, waxes and oils
- ✦ Refreshing citrus scent

BioMERS is an immersion bath ideal for most instruments and tools. While other immersion baths can take 40 to 90 minutes to reach a tuberculocidal level, BioMERS can achieve this benchmark in just one minute. BioMERS will not corrode devices or damage drains.

BioSON

ULTRASONIC CLEANER

- ❖ Pre-soak and ultrasonic detergent. Removes stain and tartar.
- ❖ Gentle on instruments
- ❖ Plant-based ingredients. Safer for users
- ❖ Refreshing citrus scent

BioSON is an ultra-concentrated universal device detergent. Designed to enhance the cavitation of cleaning bubbles when used in ultrasonic baths. This unique formula contains four enzymes that rapidly break down bioburden. It contains antimicrobial additives to reduce the odours and bacterial aerosols created by the bath. It can also be a very effective instrument pre-soak and multi-purpose detergent.

LeCLOTH

DISINFECTANT CLOTH WIPE

- ✧ Soft and Absorbent
- ✧ Reusable and Biodegradable
- ✧ Lint Free
- ✧ Autoclavable

LeCLOTH is a 100% organic cotton non-woven sheet suitable for many clinical uses. Designed to be soft, lint free, absorbent to both water and oil. Pre-saturating with disinfectant/cleaner solution or using dry and wiping or polishing. It can even be re-used and laundered up to 10 times. Heat resistant and autoclavable, one sheet can do it all.

Spirits USP

USP GRADE SOLVENT BLEND

- ❖ Plant-based ingredients.
Safer for users.
- ❖ Compatible with glass, stone,
zircona, ceramic, and metal
- ❖ Unscented

Spirits USP removes wax, resin, oil, and soil from hard surfaces. It is designed to minimize the impact on the environment, people, and equipment.

RADAR

ANTI-FOG SPRAY

- ✦ Functions in both warm or cold environments
- ✦ Streak-free visibility
- ✦ Long lasting protection
- ✦ Pleasant apple scent

Radar is an instrument and device anti-fog designed to ensure professionals see the clearest picture possible.

MOUTH OFF

ORAL APPLIANCE CLEANSER

- ❖ Cleanse and refresh without staining
- ❖ Prevents foul odours and tastes
- ❖ Compatible with soft plastics, metal, silicone and acrylic
- ❖ Clean peppermint taste/scent

MouthOFF is an effective spray that helps ensure a hygienic environment on mouth-guards, orthodontic appliances, snore guards, dentures, and many other oral appliances.

WHY MICRYLIUM?

Our Philosophy

Micrylium was built on three key philosophies. First, by using **plant-based ingredients**, we make products that are **safer** for the users and gentle on equipment & instruments. Secondly, make products that are scientifically designed to have the **fastest** broad spectrum kill times. Thirdly, ensure the products and packaging are **kinder** on the environment. Sound too good to be true? Micrylium's scientists have achieved this!

And There's More!

As many cleaning and disinfectant products are used for different purposes in a professional setting, Micrylium focused on making a family of products that work well together. Using disinfectants that weren't specifically designed to work together may unknowingly cause toxic chemical reactions which could be harmful to you and your clients. When using Micrylium products you can rest assured that you are using a family of products that work in harmony with each other.

Use the family of products that were designed to work together which are Safer, Faster and Kinder.

FAMILY OF PRODUCTS

	Category	Item Codes	Sizes	Scent	Colour	Concentration
BioSURF	Hard Surface Disinfectant	01-SURF-060 01-SURF-704 01-SURF-001 01-SURF-005	BioSURF 60mL BioSURF 710mL BioSURF 1L BioSURF 5L	Orange & Lime	Green	RTU
